ePortfolio is your personal storage system where you can save class work, create an online educational journal and reflection, create an online site, or showcase professional-quality work for prospective employees. This space is for you.

New users are required to create an account. Setting up your account for the first time is a two-step process.

1. Click here to go to CCP's Canvas site. Do not enter any information in the boxes that ask for username and password. Click on the “New User/Don’t know your password?” link (This is found under the “MyCCP Username” box).

2. Enter your CCP email address, and click “Request Password.” In a few minutes you will get an email in your CCP email account from Canvas with a link to set your password. Click on that link and fill in what you want your new password to be, twice. You can set it the same as your password for your CCP email account. However, Canvas will not make you change it every 45 days and the Canvas password will not be automatically changed when you change your CCP email password.

Your ePortfolio is located in your personal Settings in Canvas. Creating an ePortfolio is as simple as clicking a button.

Open Settings

Click the Settings link.

Open ePortfolios

Click the ePortfolios link to access all your ePortfolios.

Create an ePortfolio

Click the Create an ePortfolio button

Name your ePortfolio by typing in the ePortfolio Name field [1]. Decide if your ePortfolio will be public [2] (you can change this setting later) and then click on the Make ePortfolio button [3].

After the ePortfolio is created, there are several options for creating content for your portfolio, including a wizard that will walk you through your creation, step-by-step.
